- > Legal responsibility of an eligible Subrecipient
- In active use at the time of the disaster
- Not under the authority of another federal agency
 - US Army Corps of Engineers
 - Federal Highway Administration

Type of Work

CATEGORIES OF WORK

- Emergency Work
 - Category A Debris Removal
 - Category B Emergency Protective Measures
- > Permanent Work
 - Category C: Roads and Bridges
 - Category D: Water Control Facilities
 - Category E: Buildings and Equipment
 - Category F: Utilities
 - Category G: Parks, Recreational, and Other

WORK
FACILITY
SUBRECIPIENT

Emergency Work

EMERGENCY WORK

> CATEGORY A - DEBRIS REMOVAL

- Eliminate immediate threat to life, health and safety
- Eliminate immediate threat to improved property
- Ensure economic recovery of the community and provide a benefit for the community-at-large

> CATEGORY B - EMERGENCY PROTECTIVE MEASURES

 Activities undertaken by a community before, during, and following a disaster to save lives, protect public health and safety, and protect improved public and private property

WORK

FACILITY

Emergency Work

CATEGORY A – DEBRIS REMOVAL

GENERAL ELIGIBILITY FOR DEBRIS REMOVAL

Debris includes, but is not limited to, vegetative debris, construction and demolition debris, sand, mud, silt, gravel, rocks, boulders, white goods, and vehicle and vessel wreckage.

<u>SPECIFIC DEBRIS ISSUES (Current Updates)</u> Consolidated Debris Removal Guidance for recovery operations in all disasters, including **Hurricane Helene**.

Private Property Debris Removal (PPDR) – Applicants are not required to obtain pre-approval from FEMA before beginning Private Property Debris Removal (PPDR) on residential or commercial properties, but are encouraged to request preliminary approval where circumstances allow.

Demolition of Private Structures – Applicants are not required to obtain pre-approval from FEMA before initiating the demolition of private structures impacted by hurricanes.

Hazardous Tree Removal – The removal of trees damaged by a declared incident is eligible if they pose an immediate threat to life, public health and safety, or risk causing significant damage to improved public or private property, regardless of the tree's leaning angle. Additionally, trees that are dead or reasonably expected to die within five years from the date of the declaration are also eligible for removal.

Documenting the Removal of Hazardous Trees, Limbs and Stumps – Specific size requirements previously used to determine eligibility for the removal of hazardous trees, limbs, branches, and stumps are no longer required.

Sampling to Minimize Burden – FEMA may employ a sampling methodology when large volumes of documents are submitted to support PA claims.

EMERGENCY WORK

CATEGORY A – DEBRIS REMOVAL

- Private Property Debris Removal
 - Typically, the responsibility of property owner
 - Limited approval available under PA program
 - Must be widespread and threaten public health and safety
 - Pre-approval from FEMA is NOT required; however, FEMA must determine that the work is eligible

WORK

FACILITY

SUBRECIPIENT

Emergency Work

CATEGORY A – DEBRIS REMOVAL

The Applicant needs to provide:

- Estimated debris quantities by type (for all uncompleted work);
- Quantities of debris removed, reduced, disposed, and recycled (by type) with load tickets to support quantities;
- Photographs of debris impacts, demonstrating an immediate threat to lives, or public health and safety, or a written justification for the debris removal as necessary for the community's economic recovery;
- Location of temporary reduction sites (including any applicable lease agreements) and permanent disposal sites;
- Copies of permits for reduction and disposal sites;
- Tower logs (required if contracted);
- Documentation to substantiate legal responsibility;
- The basis of the immediate threat determination;
- Location of debris (e.g., address / geographical coordinates); and
- Documentation to substantiate the debris was deposited by the incident and was not pre-existing (e.g., waterway soundings that show pre-and post-incident levels).

Emergency Work

CATEGORY A – DEBRIS REMOVAL / CATEGORY B – EMERGENCY WORK

PROJECT FORMULATION and ADMINISTRATION

PROJECT WORKSHEET FORMULATION

Project Worksheets include:

- Scope of Eligible Work
 - Most important part of the PW
 - Specific damage to the facility and proposed repairs must be described in quantitative terms
- Cost of the work recorded
- Quantity of work and material to perform the eligible work
- ➤ FEMA/GEMA/Local should agree on the scope of work and estimated cost

Labor

- Emergency Work Categories A-B (Force Account & Donated)
 - Budgeted employees must document regular and overtime, but <u>only</u> overtime and overtime fringe benefits are eligible
 - Unbudgeted/temporary employees are eligible for regular and overtime
- Permanent Work Categories C-G
 - Both regular and overtime hours and fringe benefits are eligible

Emergency Work Labor Eligibility	Overtime	Straight-Time
Budgeted Employees	$\overline{\checkmark}$	
Unbudgeted Employees	$\overline{\checkmark}$	\square

Labor

- Must have an established policy to pay overtime prior to the declared event) *reference pg. 69 in PAPPG
- If compensatory time is usually given to replace overtime, then that policy stands and OT is not eligible.
- Fringe benefit rates are eligible for reimbursement (normally regular rates and OT rates are different) *reference pg. 68 in PAPPG

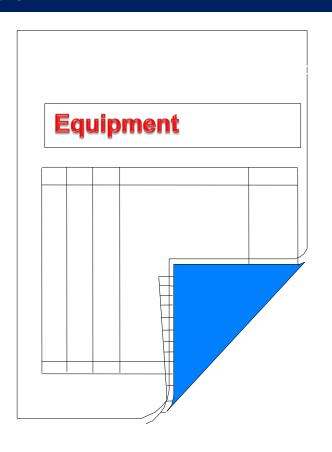

Equipment

- Must be used for eligible work
 - All usage time is eligible
 - Standby and idle time are not eligible
 - If intermittent use exceeds more than half of the regularly scheduled working hours for a day, use for the entire day may be claimed

> Equipment Rates

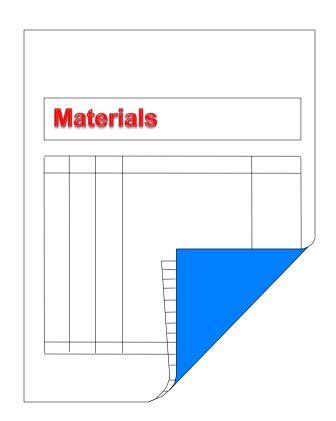

- FEMA's Schedule of Equipment Rates (2023)
- Must use FEMA cost codes or your own costs codes, whichever is less

Materials

- Purchased or used from stock
- Used for eligible work
- Material costs are eligible
- Keep invoices and/or purchase orders
- Keep all canceled checks
- Keep record of any inventory used from stock
- Maintenance or up-keep items (i.e.. Oil, gasoline) are not eligible
- Rental Equipment and fuel is typically eligible.

PROJECT FORMULATION ADMINISTRATIVE COSTS

- > Allows for direct AND indirect costs
- > Five percent of all projects (excluding donated resources)
- ➤ Management of all awarded projects, collectively
- Must have documentation to support costs
- Reimbursement will not exceed five percent
- Left over funds deobligated
- Funds are 100% Federal
- ➤ Optional
- Last project developed/awarded
- Funds provided in separate PW, Category Z

PROJECT FORMULATION MUTUAL AID

- Must have contractual agreement between both parties IN WRITING!
- Must be reasonable in costs
- Agency providing the assistance must submit invoices and ALL supporting documentation to the Subrecipient
 - Invoices should include FA Labor, Equipment and Materials *Reference pg. 86 in PAPPG
- Regular and overtime costs are eligible
- Damage assessment costs are ineligible

PROJECT FORMULATION PROCUREMENT METHODS

FEMA Finds theses procurement methods acceptable:

- Micro Purchases
 - Informal, no solicitation required, purchases under \$10K
- Small Purchases (less/equal \$250,000)
 - Informal, several price quotes
- Sealed Bids
 - Formal, advertised, lowest responsive bidder
- Competitive Proposals
 - Formal, similar to bid, award based on contractor qualifications
- Non-Competitive Proposals
 - Single source, limited circumstances, legal under applicable code

PROJECT FORMULATION CONTRACTS AND PROCUREMENT

- Reasonable Cost
- Competitively Bid

- PROCUREMENT
- Must Comply with Procurement Standard
 - Federal 2 C.F.R. 200.318-327
 - State
 - Local

PROJECT FORMULATION SPECIAL CONSIDERATIONS

To ensure program compliance, projects go through a series of reviews:

- **≻**Insurance
- ➤ Environmental and Historic Preservation
- ➤ Special Flood Hazard Areas
- > Hazard Mitigation Review

PROJECT FORMULATION ENVIRONMENTAL

Does project affect (but not limited to):

- Endangered Species
- Wetlands
- Floodplains
- Waters of the United States
