Cumulative Cases

	Positives	Fatalities
Georgia	420	13
U.S.	14,631	210
World	266,082	11,153

COVID-19 cases positive counties: 50

Unknown counties have not yet been confirmed by DPH.

Hot Topic

Relief Supplies Ordered

- 1,450 Ventilators
- 520,000 Surgical masks
- 510,000 Pairs of surgical gloves
- 295,000 Medical face shields
- 260,000 Isolation gowns
- 260,000 N95 masks
- 25,000 Clean room bouffant (hair covers)
- 25,000 Pairs of shoe covers
- 25,000 Surgical gowns
- 10,000 gallons of hand sanitizer from Old Fourth Distillery
- 2,000 Tyvek suits
- 1,000 Pairs of medical goggles
- 13 Trailers for isolation site (with the 7 DPH bought we have 20 total)
- 8 Tents for drive thru testing sites
- 2 Aeroclave sanitizers – These are used to disinfect and sanitize buildings – the large unit can sanitize a high school gym in 15 minutes.
- 1 Federal medical station

Situation Report # 008

Hot Topic

Why are reporting numbers different?

In order for DPH to report a COVID-19 case or death, the case must be confirmed by the department through testing or postmortem examination. It is a necessary step in ensuring that the information released is accurate. The biggest current lag in reporting is providers receiving results and reporting them to the state, as the state does not directly receive many of the test results. Any private provider who orders a test receives the results and then must report them to the Department of Public Health since COVID-19 is now a reportable disease.

Quarantine vs Isolation

While you may have heard these terms used interchangeably, they mean very different things. Quarantine is what happens when a person is not sick, who has **NOT** tested positive for the virus, separates him/herself by staying home or sheltering in place.

When a person has tested positive for COVID-19, whether they are well or sick, but do not need to be hospitalized, is placed in isolation, or should isolate from other household members and not go out into the public for any reason.

Calling 911

In this era of COVID-19 pandemic, our Emergency Response Services, police, fire, and paramedic are having to respond to non emergencies. **Do Not** call 911 if you do not have a critical emergency. **Businesses or individuals not adhering to social distancing nor shelter in place orders is NOT a critical emergency.**

Some examples of critical emergency are:

- Heart Attacks
- Crimes
- Strokes
- Car Accidents
- Shootings
- Fires
- Seizures
- Break-ins
- Drownings

Hot Topic

Coronavirus Risk to Pets

CDC has not received any reports of pets or other animals becoming sick with COVID-19. Currently, in the United States, there is no evidence to suggest that any animals, including pets, livestock, or wildlife, might be a source of COVID-19 infection. However, because all animals can carry germs that may make people sick, it's always a good idea to practice healthy habits around pets and other animals.

- Wash your hands after handling animals, their food, waste, or supplies.
- Practice good pet hygiene and clean up after your pets properly.
- Take pets to the veterinarian regularly and ask if you have questions about your pet's health.

For more information, visit CDC's Healthy Pets, Healthy People website.

How to protect pets if you are sick

If you are sick with COVID-19 (either suspected or confirmed), you should restrict contact with pets and other animals, just like you would around other people. Although there have not been reports of pets or other animals becoming sick with COVID-19, it is still recommended that people sick with COVID-19 limit contact with animals until more information is known about the virus. When possible, have another member of your household care for your animals while you are sick. Avoid contact with your pet including, petting, snuggling, being kissed or licked, and sharing food. If you must care for your pet or be around animals while you are sick, wash your hands before and after you interact with them.

Emotional Health

The outbreak of coronavirus disease 2019 (COVID-19) may be stressful for people. Fear and anxiety about a disease can be overwhelming and cause strong emotions in adults and children. Coping with stress will make you, the people you care about, and your community stronger.

Everyone reacts differently to stressful situations. How you respond to the outbreak can depend on your background, the things that make you different from other people, and the community you live in.

Learn more about taking care of your emotional health here:

Caring for Someone at Home with COVID-19

Most people who get sick with COVID-19 will have only mild illness and should recover at home. Care at home can help stop the spread of COVID-19. If you are caring for someone at home, monitor for emergency signs, prevent the spread of germs, treat symptoms, and carefully consider when to end home isolation.

If you develop emergency warning signs, get medical attention immediately. Emergency warning signs include*:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

**This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning.*

CDC's COVID-19 Apple App

Apple Inc., in partnership with the White House Coronavirus Task Force and the U.S. Department of Health and Human Services, including the Centers for Disease Control and Prevention (CDC), released an app and website that guides Americans through a series of questions about their health and exposure, to determine if they should seek care for COVID-19 symptoms.

The tool provides CDC recommendations on next steps including guidance on social distancing and self-isolating, how to closely monitor symptoms, recommendations on testing, and when to contact a medical provider.

Users can download the free app from Apple's App Store or access the tool online at www.apple.com/covid19. Everyone has a role to play as we work together to stop the spread of COVID-19.

Price Gouging

On March 14, Governor Kemp issued an Executive Order and declared a Public Health State of Emergency in the State of Georgia. He further ordered that during preparation, response and recovery activities for this Public Health Emergency, price gouging of goods and services necessary to support Public Health would be detrimental to the social and economic welfare of the citizens of this State. Accordingly, he enacted price gouging controls for the State of Georgia.

New guidance clarifies eligibility of faith-based organizations participating in the Paycheck Protection Program and Economic Injury Disaster Loan program.

The Small Business Administration issued guidance clarifying that all faith-based organizations impacted by Coronavirus are eligible to participate in the Paycheck Protection Program and the Economic Injury Disaster Loan program, without restrictions based on their religious identity or activities, to the extent they meet the eligibility criteria outlined in the CARES Act that was passed by Congress, signed into law by President Trump. For more information, visit <https://www.sba.gov/about-sba/sba-newsroom/press-releases-media-advisories/sba-clarifies-eligibility-faith-based-organizations-participate-paycheck-protection-and-economic>.

Georgia Leaders Plan to Extend Public Health State of Emergency

Today, Governor Brian Kemp, Lieutenant Governor Geoff Duncan, and House Speaker David Ralston announced plans to extend Georgia's public health state of emergency through **May 13, 2020** in order to mitigate the spread of COVID-19.

Extending the public health state of emergency through May 13, 2020 will allow for the continual deployment of resources to communities in need, lend support to frontline medical providers, and prepare for potential patient surge in healthcare facilities.

Statewide Shelter in Place Extended

On April 8, 2020 at his press briefing, as well as the updated Public Health Executive Order, Governor Brian P. Kemp announced the extension of his Executive Order to Ensure a Safe & Healthy Georgia, also known as the **Statewide Shelter In Place**, through April 30, 2020.

All visitors and residents of the State of Georgia, except for those providing essential services, are required to shelter in place in their homes or places of residence and take every possible precaution to limit social interaction.

Weighing Your Risk

With severe weather, you need to weigh the risks of the storms versus your risk of exposure. If you cannot take refuge in your home, discuss sheltering with neighbors, friends, or family. Hotels can also be an option.

If you need to shelter with family or neighbors, do your best to maintain distance and follow CDC guidance.

If your community has shelters, verify now which will be open and operating during the pandemic.

Tornado Sheltering Guidelines during the COVID-19 Pandemic

Don't let the virus prevent you from seeking refuge from a tornado. If a public tornado shelter is your best available refuge from severe weather, take steps to ensure you follow CDC guidelines for physical distancing and disease prevention. If you cannot take refuge in your home, shelter with neighbors, friends or family. If your community has shelters, reach out to your local EMA to verify which will be open and operating during the pandemic. For more information, visit <http://tiny.cc/qlnwmz>

Social Distancing During Storm Recovery

Georgia is known for its community spirit, and neighbors helping neighbors during disasters. As we recover from this weekend's severe storms, it's still important to practice social distancing.

If you're lending a hand to a neighbor, be aware of the number of people on the property and maintain at least six feet between people whenever possible. Wear a mask and be sure to wash your hands!

DPH Testing Access

All symptomatic individuals will be eligible for COVID-19 testing. Priority will be given to health care workers, first responders, law enforcement, long-term care facility residents and staff.

Individuals can now be referred either by their health care provider or their local health department. Local health departments can be found on the DPH homepage at: <https://dph.georgia.gov/>, under COVID-19 in Georgia.

Expanded COVID-19 Testing

COVID-19 testing has expanded in Georgia, but you still need a referral. There are three ways to get one: You can be referred by your healthcare provider. You can also call your local Health Department for a referral. Augusta University Health provides 24/7 free virtual screenings on their website or on the AU Health ExpressCare app. You can learn more by visiting their website: <https://www.augustahealth.org/ex.../covid-19-virtual-screening>. All testing is free.

Additional COVID-19 Testing Sites Online in Georgia

The Georgia Department of Public Health has released a list of all active specimen collection sites for COVID-19 testing in Georgia. The list contains 48 active testing sites across the state.

Visits to these sites are by **referral or appointment only**, and Georgians should contact their medical provider, local public health officials, or other contacts listed for information.

To see the specimen collection site list, visit: <https://gov.georgia.gov/press-releases/2020-04-24/additional-covid-19-testing-sites-online-georgia>.

Day of Prayer Service

Governor Brian P. Kemp, Lieutenant Governor Geoff Duncan, Speaker David Ralston and faith leaders from across Georgia will hold a Day of Prayer service in the rotunda of the Georgia State Capitol on April 27 at 10 a.m.

As the state continues to battle COVID-19, Kemp, Duncan, and Ralston are calling on all Georgians and members of the faith community around the state to participate by posting videos of their prayers on social media throughout the day. For more information, visit <https://gov.georgia.gov/press-releases/2020-04-24/gov-kemp-lt-gov-duncan-speaker-ralston-faith-leaders-hold-day-prayer>

Department of Public Health Antibody Testing

The Georgia Department of Public Health, Fulton County Board of Health and DeKalb County Board of Health are working with the CDC to learn more about the spread of COVID-19 in the community. From April 28 through May 4, teams will be visiting randomly selected homes in DeKalb and Fulton to ask residents questions about their health and collect blood samples for an antibody test. The antibody test can tell us whether a person might have had a past infection with the virus that causes COVID-19. The antibody test is not meant to diagnose whether a person has COVID-19 now. **Participation is voluntary.** For more information, visit <https://dph.georgia.gov/covid-19-antibody-testing>

Department of Public Health Seeking Contact Tracers

The Georgia Department of Public Health (DPH) is seeking Contact Tracers to support the Department of Public Health and Local Boards of Health to perform COVID-19 contact tracing.

DPH will hire, train and supervise a team of community contact tracing staff across Georgia. The aim will be to call each person diagnosed with COVID-19, gather their contacts, and proceed to call every contact in Georgia. This will fortify efforts to control the pandemic in Georgia.

For more information and to apply, visit:

Department of Public Health Antibody Testing

The Georgia Department of Public Health, Fulton County Board of Health and DeKalb County Board of Health are working with the CDC to learn more about the spread of COVID-19 in the community. Tomorrow, May 4, will be the last day teams are visiting randomly selected homes in DeKalb and Fulton to ask residents questions about their health and collect blood samples for an antibody test. The antibody test is not meant to diagnose whether a person has COVID-19 now. Participation is voluntary.

SBA to Make Economic Injury Disaster Loans Available to U.S. Agricultural Businesses Impacted by COVID-19 Pandemic

Agricultural businesses are now eligible for Small Business Administration's Economic Injury Disaster Loan and EIDL Advance programs. SBA's EIDL portal will reopen today as a result of funding authorized by Congress through the Paycheck Protection Program and Healthcare Enhancement Act. The legislation provides additional funding for farmers and ranchers and certain other agricultural businesses affected by the Coronavirus (COVID-19) pandemic.

Temporary Medical Facility at Phoebe Putney Memorial Hospital

This morning, Governor Brian Kemp toured a temporary medical facility in Albany, Dougherty County, Georgia. The facility is expected to be operational on Wednesday, May 6.

Dougherty County is one of the areas hit hardest by COVID-19. The 24-bed facility will treat patients in Dougherty County and overflow patients from the surrounding area.

Governor Kemp stated that this facility will not only be used for COVID-19 response, but will also serve as a valuable resource for future incidents in the State of Georgia.

GEMA/HS & DPH Distribute Largest PPE Shipment to Date

Governor Brian P. Kemp announced that the Georgia Emergency Management and Homeland Security Agency (GEMA/HS) and the Georgia Department of Public Health (DPH) distributed the largest shipment of personal protective equipment (PPE) to date.

More than 600 orders, equaling 150 pallets of PPE and supplies, left the DPH warehouse bound for hospitals, healthcare facilities, and test sites throughout the State. Additionally, the team delivered four urgent PPE resupplies to the Georgia Department of Agriculture, the CVS Test Site at Georgia Tech, and the Georgia Department of Corrections. The shipment yesterday totaled 38,420 face shields, 423,000 gloves, 432,150 surgical masks, and 81,120 coveralls to frontline healthcare workers.

Governor Kemp Announces COVID-19 Policies for Daycare Centers, Summer Camps and More

On May 12, Gov. Brian P. Kemp announced additional steps to be taken in the reopening of Georgia. While social distancing measures and many of the mitigation strategies previously implemented by businesses remain in effect, additional guidance was issued regarding daycare centers, public pools, summer camps and other activities. A full explanation is available in the Governor's Executive Order here:

DPH Implements Contact Tracing to Stop the Spread of COVID-19

Contact tracing is a tool used by Public Health to quickly identify people who have been exposed to an infectious disease (COVID-19, measles, Ebola, TB, STDs) and alert their contacts of their exposure.

The goal of contact tracing is to help prevent the further spread of infection, to identify hotspots of infection, and to protect friends, families and communities from potential infection.

For more information about contact tracing, contact: dph.georgia.gov or call 1-866-782-4584.

Over 300,000 COVID-19 Tests Reported to Georgia Department of Public Health

Governor Brian P. Kemp announced that 301,874 COVID-19 tests have been completed and reported to the Georgia Department of Public Health (DPH), as of 5/15/2020. As the state continues to ramp up testing, the number of positive cases will continue to rise; however, with more than 300,000 tests reported to the state, the percent of positive cases in Georgia continues to decrease.

Georgia has tested 2.85 percent of its total population. The state will continue to increase testing to remain on track in the months ahead.

Over 300,000 COVID-19 Tests Reported to Georgia Department of Public Health

Governor Brian P. Kemp announced that 301,874 COVID-19 tests have been completed and reported to the Georgia Department of Public Health (DPH), as of 5/15/2020. As the state continues to ramp up testing, the number of positive cases will continue to rise; however, with more than 300,000 tests reported to the state, the percent of positive cases in Georgia continues to decrease.

Georgia has tested 2.85 percent of its total population. The state will continue to increase testing to remain on track in the months ahead.

Georgia Sees Improvement in COVID-19 Testing

Governor Brian Kemp announced that Georgia ranks twenty-first out of fifty-four states and territories on the current percentage of total population tested, up from forty-sixth one month ago. Among states with more than five million residents, Georgia ranks eighth out of twenty-three states.

For more information on testing sites and scheduling an appointment, visit the Georgia Department of Public Health's website at:

CVS Health Opens 23 New Drive-Thru Test Sites in Georgia as Part of Nationwide COVID-19 Response

Governor Kemp joined CVS Health to announce the launch of new COVID-19 testing sites in Georgia. On Friday, May 22 CVS Health will open 23 new COVID-19 test sites at select CVS Pharmacy drive-thru locations across the state. The opening of additional test sites across the state and country will be announced by the end of the month. Testing will **not** take place inside any retail locations. Appointments for testing can be made by contacting your local Health Department. Read the full press release here:

Georgia Announces Record Low COVID-19 Hospitalizations, Ramps Up Nursing Home Testing

Governor Brian P. Kemp today announced Georgia has tested 59.7% of all nursing home residents, in addition to reporting a new low in COVID-19 positive patients currently hospitalized.

There are 889 Georgians currently hospitalized with COVID-19. Georgia has seen a 40% drop in this statistic since May 1, 2020.

Preparing for Hurricane Season During the COVID-19 Pandemic

As you are taking precautions to keep yourself and your family safe from the coronavirus (COVID-19) pandemic, it is important to stay prepared for other disasters. Hurricane season began on June 1, and the time to prepare is now.

While many preparedness tools available to you are the same, certain actions may look different while COVID-19 remains a concern. FEMA has updated guidelines for preparing for hurricane season.

Check out the updated guidelines here:

<https://www.ready.gov/hurricanes>.

Georgia Tests 97% of Nursing Home Residents

The Georgia Department of Community Health's (DCH) June 11, 2020 Long-Term Care Facility COVID-19 report indicated that 97% of nursing home residents in facilities with 25 or more beds have now been tested for COVID-19. This marks a 12% improvement in one week. Additionally, staff testing in nursing homes is up 13% week-over-week.

In DCH's report Thursday, 3,269 residents have recovered from COVID-19 out of 6,259 total residents who have tested positive.

All Georgians Eligible for Free COVID-19 Testing

All Georgians are eligible for free COVID-19 testing, regardless of whether or not symptoms are present.

Individuals seeking to be tested must make an appointment by contacting their local Health Department or healthcare provider. A list of Direct Patient Lines for local Health Departments can be found on the Georgia Department of Public Health homepage, and a list of testing site locations can be found at the link below.

<https://dph.georgia.gov/locations/covid-19-testing-site>.

GEMA/HS Preparing COVID-19 Alternate Care Facility in Milledgeville

The Office of Governor Brian P. Kemp announced the Georgia Emergency Management and Homeland Security Agency is preparing a COVID-19 alternate care facility for non-critical patients in Milledgeville.

The 80-bed site will be housed at the National Guard Youth Challenge Academy facility located at 451 Baland Road, and staffed with contract medical personnel from PAE Staffing – the same company used to staff the alternate care facility at the Georgia World Congress Center. The facility is expected to be completed in early July.

The Office of Governor Brian P. Kemp announced the Georgia Emergency Management and Homeland Security Agency is preparing a COVID-19 alternate care facility for non-critical patients in Milledgeville.

The 80-bed site will be housed at the National Guard Youth Challenge Academy facility located at 451 Baland Road, and staffed with contract medical personnel from PAE Staffing – the same company used to staff the alternate care facility at the Georgia World Congress Center. The facility is expected to be completed in early July.

All Georgians Eligible for Free COVID-19 Testing

All Georgians are eligible for free COVID-19 testing, regardless of whether or not symptoms are present.

Individuals seeking to be tested must make an appointment by contacting their local Health Department or healthcare provider. A list of Direct Patient Lines for local Health Departments can be found on the Georgia Department of Public Health homepage, and a list of testing site locations can be found at the link below.

<https://dph.georgia.gov/locations/covid-19-testing-site>.

Gov. Kemp Launches "Safety Promise" Campaign to Urge Georgians to Heed Public Health Guidance

Governor Brian Kemp introduced the Georgia Safety Promise, a safety campaign to remind Georgia businesses and the public of the importance of following COVID-19 safety guidelines, by agreeing to simple - yet critical - measures that help protect Georgians from COVID-19, minimize spread of the virus, and keep Georgia open for business.

Participating Georgia businesses will receive a full digital toolkit of resources to share their commitment, including social media posts, signage for their business, and more.

To learn more about the Georgia Safety Promise, visit www.GeorgiaSafetyPromise.com.

Age Range Change Explanation

Yesterday, the age range for deaths in Georgia on the Situation Report was listed as 14 to 90+ years old. Today, the age range is listed as 17 to 90+ years old. Prior to publishing the Situation Report yesterday, Georgia DPH confirmed that the 14-year-old who was added to the fatality number was a Non-Georgia resident who died in Georgia, therefore the death was included in our count. They added that the death was still under investigation in the person's state of residency, and that the count could change upon completion of the other state's investigation. The removal of the 14 year old impacted the age range for today, adjusting that number upward to 17. We will continue to be transparent in our reporting, and explain any adjustments to our reports as they are made.

COVID-19 Update

As Georgia continues to battle the spread of COVID-19, Governor Kemp and state officials are preparing for enhanced testing and hospital surge capacity to ensure the health and well-being of our citizens.

To address ongoing capacity needs, Governor Kemp and state officials will reactivate the Georgia World Congress Center (GWCC) utilizing state-owned assets – hospital beds, medical equipment, etc. – procured at the Governor's direction through the GEMA/HS earlier this year.

First, however, the state plans to leverage a new contract for enhanced bed capacity with a metro-Atlanta area hospital. More details will be provided in the coming days.

COVID-19 Update

As Georgia continues to battle the spread of COVID-19, Governor Kemp and state officials are preparing for enhanced testing and hospital surge capacity to ensure the health and well-being of our citizens.

To address ongoing capacity needs, Governor Kemp and state officials will reactivate the Georgia World Congress Center (GWCC) utilizing state-owned assets – hospital beds, medical equipment, etc. – procured at the Governor's direction through the GEMA/HS earlier this year.

First, however, the state plans to leverage a new contract for enhanced bed capacity with a metro-Atlanta area hospital. More details will be provided in the coming days.

How to Wear Cloth Face Coverings

Cloth face coverings are an additional step to help slow the spread of COVID-19 when combined with every day preventive actions and social distancing in public settings.

Who should NOT use cloth face coverings: children under age 2, or anyone who has trouble breathing, is unconscious, incapacitated or otherwise unable to remove the mask without assistance.

Cloth face coverings are NOT surgical masks or N95 respirators. Currently, surgical masks and N95 respirators are critical supplies that should be reserved for healthcare workers and other first responders. Visit [cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html](https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html).

Georgia Partners with UPS to Deliver PPE Statewide

Governor Brian Kemp announced today that Georgia Emergency Management and Homeland Security Agency (GEMA/HS) is leveraging an existing state contract with Georgia-based UPS to deliver personal protective equipment to medical facilities across Georgia.

UPS delivered three mailing system terminals at the GEMA/HS RSS warehouse this week, and the company is training state employees to operate the systems operational within the next week.

How to Wear Cloth Face Coverings

Cloth face coverings are an additional step to help slow the spread of COVID-19 when combined with every day preventive actions and social distancing in public settings.

Who should NOT use cloth face coverings: children under age 2, or anyone who has trouble breathing, is unconscious, incapacitated or otherwise unable to remove the mask without assistance.

Cloth face coverings are NOT surgical masks or N95 respirators. Currently, surgical masks and N95 respirators are critical supplies that should be reserved for healthcare workers and other first responders. Visit [cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html](https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html).

How to Wear Cloth Face Coverings

Cloth face coverings are an additional step to help slow the spread of COVID-19 when combined with every day preventive actions and social distancing in public settings.

Who should NOT use cloth face coverings: children under age 2, or anyone who has trouble breathing, is unconscious, incapacitated or otherwise unable to remove the mask without assistance.

Cloth face coverings are NOT surgical masks or N95 respirators. Currently, surgical masks and N95 respirators are critical supplies that should be reserved for healthcare workers and other first responders. Visit [cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html](https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html).

Governor Kemp Calls on Georgians to Do "Four Things for Four Weeks" to Stop COVID-19

Governor Brian Kemp and Georgia Department of Public Health (DPH) Commissioner, Dr. Kathleen Toomey, are calling on all Georgians to implement "Four Things for Four Weeks" into their daily routines to flatten the curve and slow the spread of COVID-19.

- 1) Wear a mask when out in public or when you cannot keep distance inside.
- 2) Practice physical distancing – six feet from those you don't live with.
- 3) Wash your hands for 20 seconds several times throughout the day with soap and warm water.
- 4) Follow the Executive Order and heed the guidance provided by public health officials.

Governor Kemp Calls on Georgians to Do "Four Things for Four Weeks" to Stop COVID-19

Governor Brian Kemp and Georgia Department of Public Health (DPH) Commissioner, Dr. Kathleen Toomey, are calling on all Georgians to implement "Four Things for Four Weeks" into their daily routines to flatten the curve and slow the spread of COVID-19.

- 1) Wear a mask when out in public or when you cannot keep distance inside.
- 2) Practice physical distancing – six feet from those you don't live with.
- 3) Wash your hands for 20 seconds several times throughout the day with soap and warm water.
- 4) Follow the Executive Order and heed the guidance provided by public health officials.

Situation Report Map Change

Following changes made to the Georgia DPH Daily Status Report Dashboard, the map on this report has been changed from a map of cumulative confirmed cases per 100,000 people to a map of reported cases per 100,000 people in the last 14 days. This change will provide Georgians with more information regarding recent trends in their area. The cumulative confirmed cases per 100,000 people map is still available on the Georgia DPH's Daily Status Report Dashboard.

GEMA/HS donates additional PPE supplies to USG

The University System of Georgia (USG) this week is receiving additional personal protective equipment (PPE) and other supplies from the GEMA/HS which will be provided to its 26 institutions ahead of next month's return to on-campus instruction.

These supplies continue to help ensure all of Georgia's 26 public universities and colleges are well stocked for the coming academic year. Last week, USG announced the system had already sent a total of 835,400 masks and 1,161 cases of disinfecting wipes to campuses across the state. Including the supplies being delivered this week, the total number of masks being provided to USG campuses currently totals more than 1.8 million.

Fatality Statistics

Average Age	73.4 years old
Age Range	17 to 90+ years old
Male	1,894
Female	1,775
Unknown	2
