STATE OF GEORGIA

SCHOOL SAFETY PLAN CHECKLIST

The Georgia Emergency Management and Homeland Security Agency (GEMA/HS) in partnership with the Georgia Department of Education (GaDOE) have worked collaboratively to develop the following School Safety Plan Checklist to accompany the State of Georgia Guide for School Safety Plans.

The State of Georgia School Safety Plan Checklist includes items required by law and recommended best practices with references to specific sections within the Guide. Required items have been delineated within the checklist to assist in plan development. To provide additional guidance, there are references to legal statutes and safety reference guides, along with checkboxes for items that have been completed.

School Name:

Academic Year:
